## **Believing : the neuroscience of fantasies, fears, and ...**

Beliefs: What are they? How have evolution and culture led to a brain that is seemingly committed to near endless belief creation? And once established, why are most beliefs so difficult to change? Believing offers answers to these questions from the perspective of a leading neuroscientist and expert in brain behavior research. bining ...

## **Believing: The Neuroscience of Fantasies, Fears, and ...**

Praise For Believing: The Neuroscience of Fantasies, Fears, and Convictions... "A superb scientist, McGuire has mastered understanding how body and brain interact. He shines a clarifying light on the puzzling and even

infuriating issue of why countless people believe the strange, often dangerous things they do.

**Believing: The Neuroscience of Fantasies, Fears, and ...**

A new book about brain chemistry, neural systems, and the formation of beliefs from the scientist who brought to light serotonin's many crucial roles in human behavior.

**Believing: The Neuroscience of Fantasies, Fears, and ...**

Believing is a challenging (and still unfinished) study of why we believe what we do and how those beliefs influence our behavior. The reader will find much to discuss, debate, and disagree with, but the journey is well worth the effort.
