Equations of Circles with a given Radius and Center Worksheets

This batch of lessons and worksheets has us trying to make sense of the equations of circle on a coordinate grid. On the coordinate plane, the standard form equation of a circle is: $(x - h)^2 + (y - k)^2 = r^2$, h and k are the x and y coordinates of the center of the circle. In many cases you will be matching equations to circles. You will also need to determine the center and radius of the circles you are exploring.
