I wanted to use fluorescent lighting and could not find any detailed info on the subject. This book covers the entire subject of indoor gardening and not just lighting. He covers growing in dirt or hydroponics. I would highly recommend this book to anyone starting a garden indoors for the first time. Or if you have tried to grow vegetables inside and just did not do very well.

Disappointed to discover that this book contains almost identical information (some of the same paragraphs and photos) as 'Marijuana Horticulture, The Indoor Outdoor Medical grower's Guide' by Jorge Cervantes (an alias of George Van Patton). 'Gardening Indoors With Soil & Hydroponics' is a neutralized and disguised version (no mention of cannabis). Neither book delves into LED lights.
