How do deaf or hard of hearing children learn to read?

Learning to read in deaf or hard of hearing children with signed language Learning to read for children who are deaf and communicate with signed language presents a unique situation. Imagine having to learn to read in Thai without knowing the pronunciation, for example, that the word '????' refers to the written word 'horse'.

Language acquisition by deaf children

Deaf and hard of hearing children who have higher levels of American Sign Language proficiency and those who have higher proficiency in a second language (e.g., English) are those who were exposed to American Sign Language during the critical period of language.

Studying Language Acquisition in Deaf Children | Research

The problem is that for deaf children, language is visual. It's not passively absorbed as the sounds of life occur around them. "When deaf children have access to visual language, they can navigate their world right away," Salamy says.

Visual Language American Society for Deaf Children

Learning two languages (that is, American Sign Language and English) is advantageous for deaf and hard of hearing children. A child's language foundation is an important factor in spoken language development.

Language Development in Deaf Children: What You Should ...

Even though deaf children learn language in a similar manner to that of hearing children (i.e. they create similar errors to that of hearing children) (Bellugi & Klima, 1991), deaf children often also face language impoverishment, something that most hearing children do not (except in extreme cases) (Meadow, 1968).

Language Development and Deaf Children

Many deaf children are still learning basic language skills when they arrive at school. Hearing children arrive at school with a sophisticated language base and

Hearing aids for children | Types of hearing aids for deaf ...

However, there is lots that can be done to help make listening easier and clearer for deaf children, including learning to be deaf friendly, improving the acoustic (listening) environment, and using other technologies with their hearing aids (such as soundfield systems and radio aids).
